

Instrumentation for Your Quantum Research

Materials & Devices Characterization

- PPMS® DynaCool™ & MPMS® 3 SQUID Systems
- SQUID, VSM, Kerr and Torque Magnetometry

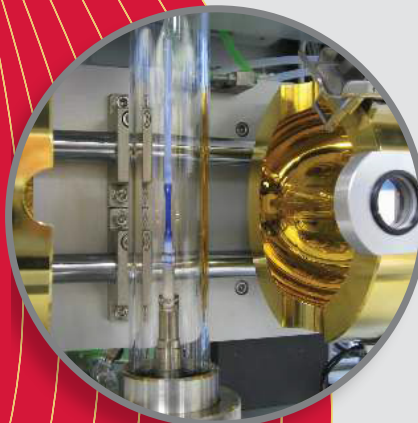

Optics & Cryogenics

- 7T Low Vibration Magneto-Optical Cryostats
- Helium Recovery & Recycling Plants
- Cryogenic Accessories & Consumables

Single Crystal Growth Furnaces

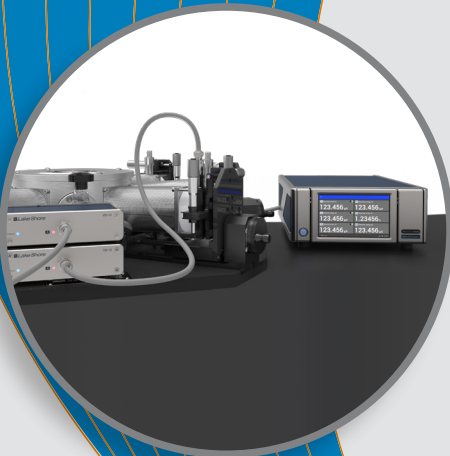

- 2- and 4-Mirror Floating Zone Furnaces
- Laser-Based Floating Zone Furnace
- Czochralski Tetra Arc Furnaces

Quantum Design

Lake Shore Cryotronics Research Solutions

Materials & Devices Characterization

- Cryogenic Probe Stations
- Synchronous Source Measure Systems
- CryoComplete™ 77 to 500K Characterization Systems
- VSM, Electromagnet & Superconducting Magnet Systems

Cryogenic Measurement

- Cryogenic Sensors & Probes
- Temperature Controllers & Monitors
- Cryogenic-Rated Magnetic Measurement Probes & Sensors

Cryogenic Environments

- Environment by Janis Wet & Dry Cryostats
- Recirculating Gas Coolers
- Dewars & Cryogenic Lab Accessories
